**BillBite** is a smart, cloud-based **Restaurant POS System** designed to simplify billing, order management, and kitchen coordination. Built by **iSaaSPro**, it helps restaurants, cafés, and food outlets handle dine-in, takeaway, and online orders seamlessly. With real-time analytics, multi-branch management, and digital invoicing, **BillBite** brings efficiency and accuracy to every transaction — so you can focus on delighting your customers.

## Key Features

- ✔ **Smart Billing & Invoicing** – Fast and accurate billing for dine-in, takeaway, and online orders.
- ✔ **Table & Order Management** – Effortlessly manage tables, split bills, and track orders in real-time.
- ✔ **Kitchen Display System (KDS)** – Send orders directly from POS to the kitchen to minimize delays.
- ✔ **Inventory Management** – Track stock usage, wastage, and low-stock alerts automatically.
- ✔ **Multi-Outlet Management** – Control multiple restaurant branches from a single dashboard.
- ✔ **Customer Management** – Build a loyal customer base with insights and repeat order tracking.
- ✔ **Reports & Analytics** – Access real-time sales, profit, and performance reports anytime.
- ✔ **Cloud Access Anywhere** – Manage your business from desktop, tablet, or mobile.
